

TABLE DESIGN

Table Name : Registration

Primary Key : Id

Column	Data Type	description
Id	int	Primary key
email	varchar	
password	varchar	
user type	enum	[admin,coach,players,vendors]
status	Tiny int	

Table name : Schedule

Primary Key : Shedule id

Foreign Key :Coach id

Column	Data Type	description
Schedule id	int	pk
Schedule day	enum	
Schedule hour	Tiny int	
Schedule session id	int	
Schedule remarks	varchar	
Coach id	int	fk

Table name: Profile player

Primary Key: Player id

Foreign Key: Coach id

Column	Data Type	description
Player id	int	pk
Player name	varchar	
Player city	varchar	
Player state id	varchar	
Player pin	varchar	
Player photo	varchar	
Player dob	date	
Player role	varchar	
Player bowl style	varchar	
Player bat style	varchar	
Coach id	int	fk
Player email	varchar	
Player status	varchar	

Table name: session

Primary Key: Session id

Column	Data Type	description
Session id	int	pk
Session name	varchar	
detailse	varchar	

Table name: Profile coach

Primary Key: Coach id

Foreign Key: Coach state id

Column	Data Type	Description
Coach id	int	pk
Coach name	varchar	
Coach city	varchar	
Coach state id	varchar	fk
Coach pin	varchar	
Coach contact number	varchar	
Coach experience	varchar	
Coach photo	varchar	
Coach remarks	varchar	
Coach dob	date	
Coach specialized	varchar	
Coach status	varchar	

Table name : State

Primary Key: State id

Column	Data Type	description
State id	int	pk
State name	varchar	

\

Table name: Progress

Primary Key: Progress id

Foreign Key: Coach id

Column	Data Type	description
Progress id	int	pk
Progress date	date	
Progress session	varchar	
Coach id	int	fk
Player id	int	
Progress remarks	varchar	
Batting points	Tiny int	
Bowling points	Tiny int	
Field points	Tiny int	

Table name: Vendor

Primary Key: Vendor id

Foreign Key: Vendor state id

Column	Data Type	description
Vendor id	int	pk
Vendor name	varchar	
Vendor city	varchar	
Vendor state id	int	fk
Vendor contact	varchar	
Vendor remarks	varchar	

Table name: equipment

Primary Key: Equipment id

Foreign Key: Vendor id

Column	Data Type	description
equipment id	int	pk
Vendor id	int	fk
equipment price	varchar	
equipment category	varchar	
Company	varchar	

Table name: Payments

Primary Key: Payment id

Foreign Key: Player id

Column	Data Type	description
Payment id	int	pk
items	varchar	
price	varchar	
Player id	int	fk
status	bit	

Table name: Player style

Primary Key: Player style id id

Column	Data Type	description
Player style id	int	pk
Player style style	varchar	
Player style type	varchar	
status	varchar
