TABLE DESIGN

Table Name : Registration

Primary Key : Id

Column	Data Type	description
Id	int	Id of the user
Email	varchar	Email of the user
Password	varchar	Password of the user
User_type	varchar	[admin,coach,players,vendors]
Status	varchar	User status

Table name : Schedule

Primary Key :Schedule_id

Foreign Key :Coach_id

Foreign Key : Session_id

Column	Data Type	description
Schedule_id	int	Id of the schedule
Schedule_day	varchar	Schedule day
Schedule_hour	varchar	Schedule hour
Session_id	int	Id of session
Schedule_remarks	varchar	Remarks
Coach_id	int	Id of the coach

Table name: Profile player

Primary Key: Player_id

Foreign Key: Coach_id

Foreign Key: State_id

Column	Data Type	description
Player_id	int	Id of the player
Player_name	varchar	Name of the player
Player_city	varchar	City of the player
Player_state id	varchar	State id
Player_pin	varchar	pin
Player_photo	varchar	Player photo
Player_dob	date	Player date of birth
Player_role	varchar	Role of the player
Player_bowlstyle	varchar	Bowling style
Player_batstyle	varchar	Batting style
Coach_d	int	Id of the coach
Player_email	varchar	Player email id
Player_status	varchar	Status

Table name: session

Primary Key: Session_id

Column	Data Type	description
Session_id	int	Id of the session
Session_name	varchar	Name of the session
detailse	varchar	Detailse

Table name: Profile coach

Primary Key: Coach_id

Foreign Key: State_id

Column	Data Type	Description
Coach_id	int	Id of the caoch
Coach_name	varchar	Nmae of the coach
Coach_city	varchar	City of the coach
State_id	varchar	State id
Coach_pin	varchar	Pin
Contact_number	varchar	Mobile number
Coach_experience	varchar	Experiance
Coach_photo	varchar	Photo of the coach
Coach_remarks	varchar	Remarks
Coach_dob	date	Coach date of birth
Coach_specialized	varchar	Specialization
Coach_status	varchar	Status

Table name : State

Primary Key: State id

Column	Data Type	description
State_id	int	State id
State_name	varchar	Name of state

\

Table name: Progress

Primary Key: Progress_id

Foreign Key: Coach_id

Foreign Key: Player_id

Column	Data Type	description
Progress_id	int	Progres id
Progress_date	date	Date of progres
Progress_session	varchar	Progres section
Coach_id	int	Id of coach
Player_id	int	Id of player
Progress_remarks	varchar	Remarks
Batting_points	int	Batting point
Bowling_points	int	Bowling pont
Field_points	int	Field point

Table name: Vendor

Primary Key: Vendor_id

Foreign Key: State_id

Column	Data Type	description
Vendor_id	int	Id of the vendor
Vendor_name	varchar	Name of the vendor
Vendor_city	varchar	City of vendor
State_id	int	State id of vendor
Vendor_contact	varchar	Contact number
Vendor_remarks	varchar	Remarks

Table name: equipment

Primary Key: Equipment_id

Foreign Key: Vendor_id

Column	Data Type	description
Equipment_id	int	Id of the equipment
Vendor_id	int	Id of the vendor
Equipment_price	varchar	Price of the equipment
Equipment_category	varchar	Category
Company	varchar	Brand name

Table name: Payments

Primary Key: Payment_id

Foreign Key: Player_id

Column	Data Type	description
Payment_id	int	Payment id
Items	varchar	Item names
Price	varchar	Price of the item
Player_id	int	Id of the player
status	varchar	Status

Table name: Player style

Primary Key: Player_styleid

Column	Data Type	description
Player_styleid	int	Player style id
Player_style	varchar	Style of player
status	varchar	Status
